

# 2025 Global Mobility Humanities Conference

The Academy of Mobility Humanities is hosting the 2025 Global Mobility Humanities Conference (GMHC) at Konkuk University on 5-6 December, 2025. Now in its sixth year, GMHC will focus on the theme “Mobility Infrastructures of Humans, Non-humans, and More-than-humans.” The conference is currently accepting presenter applications.

<b>Date</b>	Friday–Saturday, 5–6 December 2025
<b>Location</b>	Konkuk University, Seoul
<b>Website</b>	<a href="https://www.mobilityhumanities.net/">https://www.mobilityhumanities.net/</a>

## 2025 Global Mobility Conference Co-hosting

The Academy of Mobility Humanities is co-hosting the “2025 Global Mobility Conference” together with the Korea Transportation Safety Authority’s Mobility Innovation Centre, Samsung Fire & Marine Insurance, and the Korean Society of Transportation.

The Global Mobility Conference has been held annually since 2023 to showcase Korea's innovative practices and vision in advanced mobility to the world. This year, for the first time, humanities discussions will be included as an official session in what has traditionally been a technology- and industry-centred conference, under the theme "Futures Together: Innovation for Unlocking Progress."

At this conference, Professor Mimi Sheller, an advisory committee member of the Academy of Mobility Humanities, will deliver the keynote speech. Co-researchers including Professor Peter Adey, HK Professor Taehee Kim, and HK Research Professor Donghyun Koo will also present in the “Humanities & Mobility” session.

<b>Date</b>	Tuesday–Wednesday, 9–10 September 2025
<b>Location</b>	The Westin Josun Seoul

## Signing of an MOU with Banpo Library

The Academy of Mobility Humanities has signed a memorandum of understanding (MOU) with the Banpo Library in Seocho-gu to establish a collaborative system for regional humanities education and to foster meaningful exchange and cooperation. The two institutions will mutually cooperate to promote and invigorate the humanities by utilising their content, knowledge resources, and infrastructure, as well as organising local humanities events, including humanities book concerts and humanities festivals.

## Infrastructure Humanities Fair – Infrastructure Humanities Visiting

The Academy of Mobility Humanities Education Centre is hosting “Infrastructure Humanities Visiting” as part of the Infrastructure Humanities Fair. “Infrastructure Humanities Visiting” is a regional infrastructure cultural commentary tour programme designed to share key agendas and contribute to local cultural vitalisation by exploring regional historical and cultural infrastructure.

This programme will be conducted over four sessions, held every Friday from September 19th to October 24th.

With commentary by Chanwoong Lim, a traditional culture instructor at the National Folk Museum of Korea, the tour will explore “Hanyang Infrastructure from Joseon to Enlightenment Period.” The course includes Sijeon (the commercial infrastructure of Joseon), Hanyang Fortress streams, Tapgol Park (the first Western-style park in the city), and Daehan Hospital (modern medical infrastructure).

## Infrastructure Humanities Fair –Photo Contest

The Mobility Humanities Education Centre held a “Photo Contest” as part of the 2025 Infrastructure Humanities Fair, from July 14th (Mon) to July 31st (Thurs). Under the theme of “Environment and Infrastructure,” including coexistence with nature, signs of climate change, a sustainable future, and a plastic-free life, ten works were selected as winners (1 Grand Prize, 2 Gold Prizes, 3 Silver Prizes, 4 Bronze Prizes).

Any citizens and students interested in the winning works can view the photos on the Academy of Mobility Humanities’ YouTube channel.

winning

**Grand Prize** Sunset Glow Dance of Balikal Teal

**Gold Prize** Migratory Bird Habitat in the City / Becoming One with Nature

**Silver Prize** Drawing the line of Coexistence / Electric Vehicle Charging Station in the Forest / Garbage Patch on the Han River

**Bronze Prize** Solitary Nature / Downhill Road / Japan’s Steepest Grade, Connecting Nature / Drinking Tap Water to Reduce Plastic Waste
